An extractor fan must not be fitted in the same room or space as the appliance as this can affect the safety of the appliance..
When commissioning the appliance spillage is detected, then amongst other problems there may be insufficient natural
ventilation for correct operation of the flue.. • The area immediately above the outlet must form a smooth path into the flue..
Remove the cardboard packing pieces, and any other bags or boxes containing fittings or other parts.. Any type of fire surround
used with this appliance must be adequately sealed to the wall and floor; a combustible shelf may be fixed to the wall above the
fire, providing that it complies with the dimensions given below.. Sirocco with 30 years of manufacturing exquisite quality
products using Gas or Electric in traditional and contemporary designs. 34bbb28f04 [Bmw Sat Nav Disc Iso Burner](#)
